Amendments to the Drawing

The attached new drawing sheet includes a new Figure 3. This sheet, which includes Figure 3, is a new drawing sheet and does not replace any original drawing sheets.

Attachment: New Drawing Sheet

REMARKS

In response to the Notice Of Defective Response mailed on August 20, 2009 and the Notification Of Missing Requirement mailed on June 12, 2009, Applicant has amended the present application to add the attached new Figure 3. New Figure 3 does not present new matter and is identical to the originally filed Figure 1. New Figure 3 is briefly described at page 9, lines 5-6 of the present specification, where it is referred to as the third embodiment of the present invention. That third embodiment is then disclosed in detail starting at page 13, line 1 of the specification in the Detailed Description of the invention. New Figure 3 is readily discernable from the detailed discussion of the third embodiment. In addition, notably, the structural description of Figure 3 (at page 13, lines 1-9) is nearly identical to the structural description of Figure 1 (at page 9, lines 8-17). Given that Figure 3 can be constructed from the description of the third embodiment, and given that Figure 3 is identical to Figure 1, Applicant respectfully submits that new Figure 3 is not new matter.

Applicant therefore respectfully submits that new Figure 3 addresses the deficiency noted in the Notice Of Defective Response and that no revised translation of the application is required.
